

# To the people of Greece and the Greek ambassadors in Stockholm, Oslo, Helsinki and Copenhagen:

On the morning of Saturday the 28th of September the government of Greece began arresting leading members of the political party Golden Dawn on charges of them leading, being and belonging to a «criminal organization».

Golden Dawn is a popular and growing opposition to the current regime in Greece that seems to be no more than a proxy government for the Zionist plutocrats. A regime which in an unprecedented and dangerous action works to establish a dictatorship behind a democratic mask.

The fact that the Prime Minister, Antonis Samaras, at a meeting with powerful Zionists in New York, publicly swore to eradicate Golden Dawn is highly illustrative of the above mentioned and the fact that the Greek regime is highly corrupt and is working against the interests of the Greek people.

At this point in time, some of the arrested members have been released awaiting potential charges and a coming trial. But most important, the leader Nikolaos Michaloliakos, is still held as a political prisoner.

The arrest and imprisonment of elected members of parliament and the leader of Golden Dawn is a heinous act by a dictatorial regime and constitutes a dire threat to the freedom of the Greek people.

We, The Nordic Resistance Movement, demand the immediate release of Nikolaos Michaloliakos, as well as all other political prisoners of the legitimate political party, Golden Dawn. A party that truly represents the interests of the Greek nation and its people.

If the political prisoners are not immediately released, we must conclude that it is proven beyond doubt that the ruling regime and its willing helpers within the judiciary constitute the true criminal and treasonous network within Greece.

*Our message to individuals within the government, to the opportune helpers within the state apparatus and to the media that defend the criminal actions of the regime is:*

*Aiding in the persecution of Nikolaos Michaloliakos and others may now seem beneficial to you. The Zionist proxy regime may appear all-powerful, but times are changing and a new national revolutionary force is rising in Europe.*

*Political change must and will come in Greece as well as in other European countries. One day a new power will rule Europe and it will never forget the misdeeds of those who participated in the persecution of Golden Dawn.*

*Instead of committing acts of betrayal against your own nation, you should do the right thing: Defend freedom in Greece, help Golden Dawn to bring down the current regime and establish a new national revolutionary government that truly works for the Greek nation and its people.*

**FREEDOM FOR NIKOLAOS MICHALOLIAKOS AND VICTORY FOR GOLDEN DAWN!**
